The Planning Committee reviewed the above application, and all agreed that before a decision could be made, they needed further information from PCC relating to the following:

Application lacks detail of flood risk assessment and ground contamination.

No details within the application in respect of the recently erected steel framed covered area with metal cladding on three sides.

No traffic management plan.

Application does not satisfy GN1, GN3, SP10 – Highways Safety, Infrastructure and Accessibility.

There being no other business the meeting was closed.
