The Planning Committee reviewed the above application, and all agreed that they were unable to comment as the work had already been completed and therefore should have been issued correctly as a Retrospective Planning Application, with information of works completed including fire exit, storage, and waste facilities.

CLlr Manning will create a response to be forwarded onto PCC Planning Officer dealing with this application.

Discussion Re: Pre-Application Consultation for Major Application on Land West of Criterion Way

Members discussed this item and raised concerns regarding e.g. access, security, safety and condition of the sea wall. Also, the ecology report needed to be updated. It was decided to contact MHPA and request a meeting to discuss all their issues.

There being no other business the meeting was closed.
